SUMMARY

A motivated Web Developer with a Bachelor's degree in Information Technology from the University of Education. Skilled in modern web technologies such as React.js, Node.js, Express.js and MongoDB. Adept at problem-solving and delivering high-quality solutions in collaborative environments.

PROJECTS

Personal Portfolio

- Developed a personal portfolio using React.js for a dynamic and responsive user interface.
- Utilized SASS CSS for efficient and scalable styling, improving the design and maintainability.
- Integrated Npm particles for smooth animations, enhancing the visual appeals and user interface.

E-Commerce Website

- Built a responsive e-commerce website using React.js and Tailwind CSS, featuring sign-up/login functionality with form validation.
- Integrated external APIs for real time data management, ensuring smooth and secure user interaction.

Task Flow Manager

- Built a responsive to-do list application using React.js in a Vite environment for optimal speed and performance.
- Implemented a user-friendly interface with intuitive navigation for an enhanced user experience.
- Designed the app to enable seamless task management, allowing user to easily track and organize their daily tasks.

Vital Fit

- Vital Fit is a fitness-focused website designed to help users track their fitness journey.
- Built using simple HTML, CSS, and JavaScript, the site features a user-friendly interface with workout tracking, health tips, and progress monitoring tools.
- The responsive design ensures accessibility across devices, making it easy for users to stay on top of their fitness goals.

EDUCATION

BS in Information Technology

University Of Education

2019 – 2024   📍 Lahore, Pakistan

Intermediate in Computer Science

Govt. Shalimar College
